

Traveler's Testimonial

Rebecca and her family relocated to Toyota City when her husband transferred to TMC a few years ago. They are from Taiwan. She is a housewife with two kids of 10 and 5 years old. They enjoy their lives in this marvelous town.

Toyota City Traffic Safety Learning Center is definitely worth a visit for its children-friendly designs. It's like an amusement park with various attractions such as go-karts, mini-SL, funny bicycles and so on. Kids can't stop experiencing them one after another. They even have the town models in which the instructors teach the young ones how to behave and obey the rules on the street for their own safety. They also provide different study programs for kindergarteners, school-age kids and elderly people. We can learn about traffic safety while having fun! My kids enjoyed this facility very much.
